College Scholarships

College scholarships/grants are awarded by the university/college; usually 4 years.

These are my favorite!!

“Outside”/ “Nonqualified” Scholarships

- Distract the student from maintaining high GPAs and entrance exam scores
 - Small amounts (\$500-\$1,500), mostly one-time
 - Detract from college scholarship amount which would have been awarded
-

When/How to Apply for “Outside” Scholarships

TIP: After you have an agreement with the college for an award, you can ask the financial aid office if you can find any outside assistance could it only reduce your loans and not your grants.

If **YES**, use the handout of sources aggressively!
