

## Principal Critical Resilience Study

*Are you currently serving as a principal during the 20-21 school year?  
Help us learn about principal resiliency during the COVID-19 pandemic!*

**Take the Survey**

**Please respond by February 16, 2021**

### *About the Study*

You are invited by the **21st Century California School Leadership Academy (21CSLA)** and the **UC Berkeley Leadership Programs** to participate in a study to understand how school principals cope with a variety of challenges, especially during the COVID-19 pandemic.

The goal of the current study is to better understand the resiliency of school principals and what specifically erodes it and supports it. This will help us to bring about greater awareness to the high turnover rates currently affecting the profession and to inform leadership programs, employers, and policy makers with the results.

### *About the Survey*

You are being invited to respond to online surveys that are estimated to take 20-25 minutes to complete—once in early Spring 2021 and another in Fall 2021. All responses will be anonymous.

### *Requirements*

In order to participate, you must be a practicing school principal (or equivalent role) currently employed at any California K-12 school. All school types including private schools are welcome.

***Please share with other school principals who might be interested in the study. Thank you!***
