About the Project

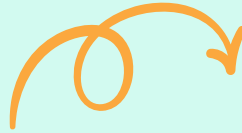

Project Goals

01

About Our School

Pacoima Charter School

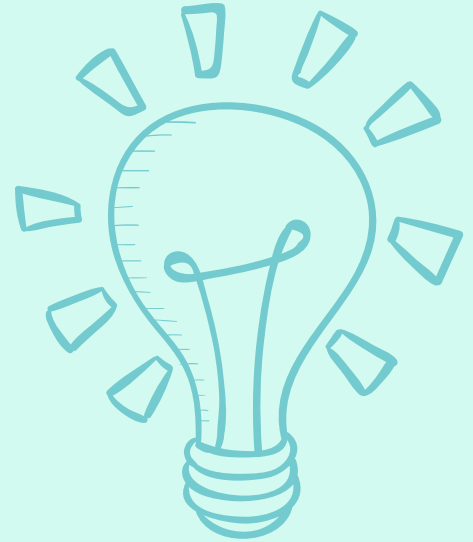

Mission

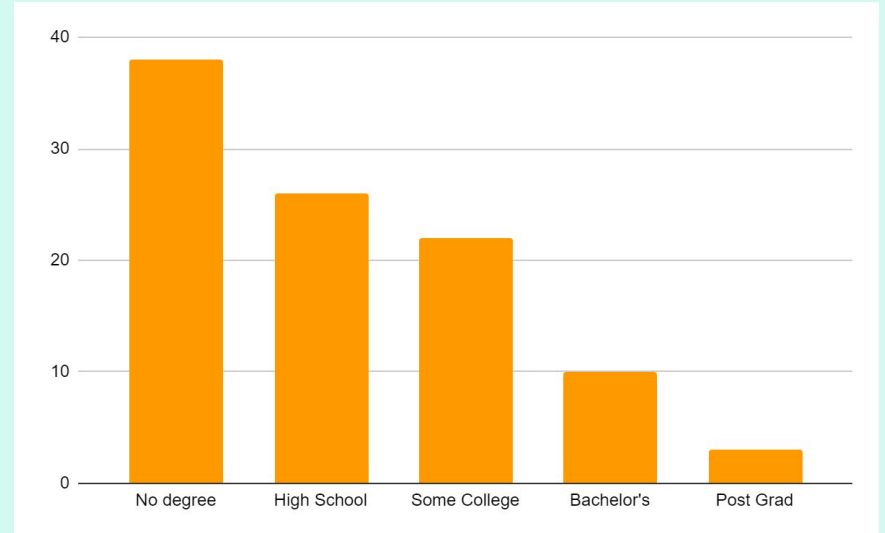

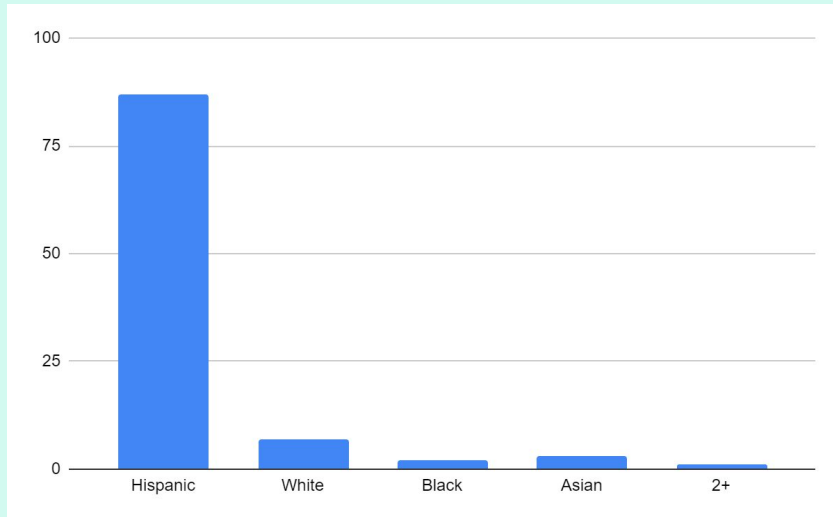

The Mission of Pacoima Charter School is to create an environment that fosters a high quality educational experience for all children. We strive to prepare students for college and career by holding high academic expectations, nurturing positive social-emotional growth, developing strong literacy and STEAM (Science, Technology, Engineering, Arts and Mathematics) skills.

Vision

The Pacoima Charter School learning community is committed to developing students who are academic achievers, effective communicators, responsible citizens, proficient with technology and ready for the challenges of the 21st century. Upon completing their Pacoima Charter journey, our students will be prepared to meet the challenges of middle school, high school, college and beyond.

Demographics of People Served

100% of our students are on free & reduced lunch.

This includes Pacoima and surrounding areas, such as Arleta, San Fernando, and Sylmar.

02

About the Project

The Pacoima Charter Wellness Center is for students and families. The center will be focus on our continued efforts to build relationships between our school and the community.

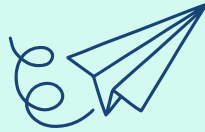

Our Set of Ideas

Programs

Starting in fall 2021, we will be implementing a restorative justice program in our school that will help strengthen relationships with our students, parents, and community.

Goals

Pacoima Charter School wants to create a safe and comfortable space for students, parents and community members can gather and work on a variety of issues.

What We Are Working On

Mental Health

This project aims to educate students and their families on ways to cope with hardships due to COVID. By providing families with support groups and stress management tools, this program will address the social-emotional needs of our community.

Education

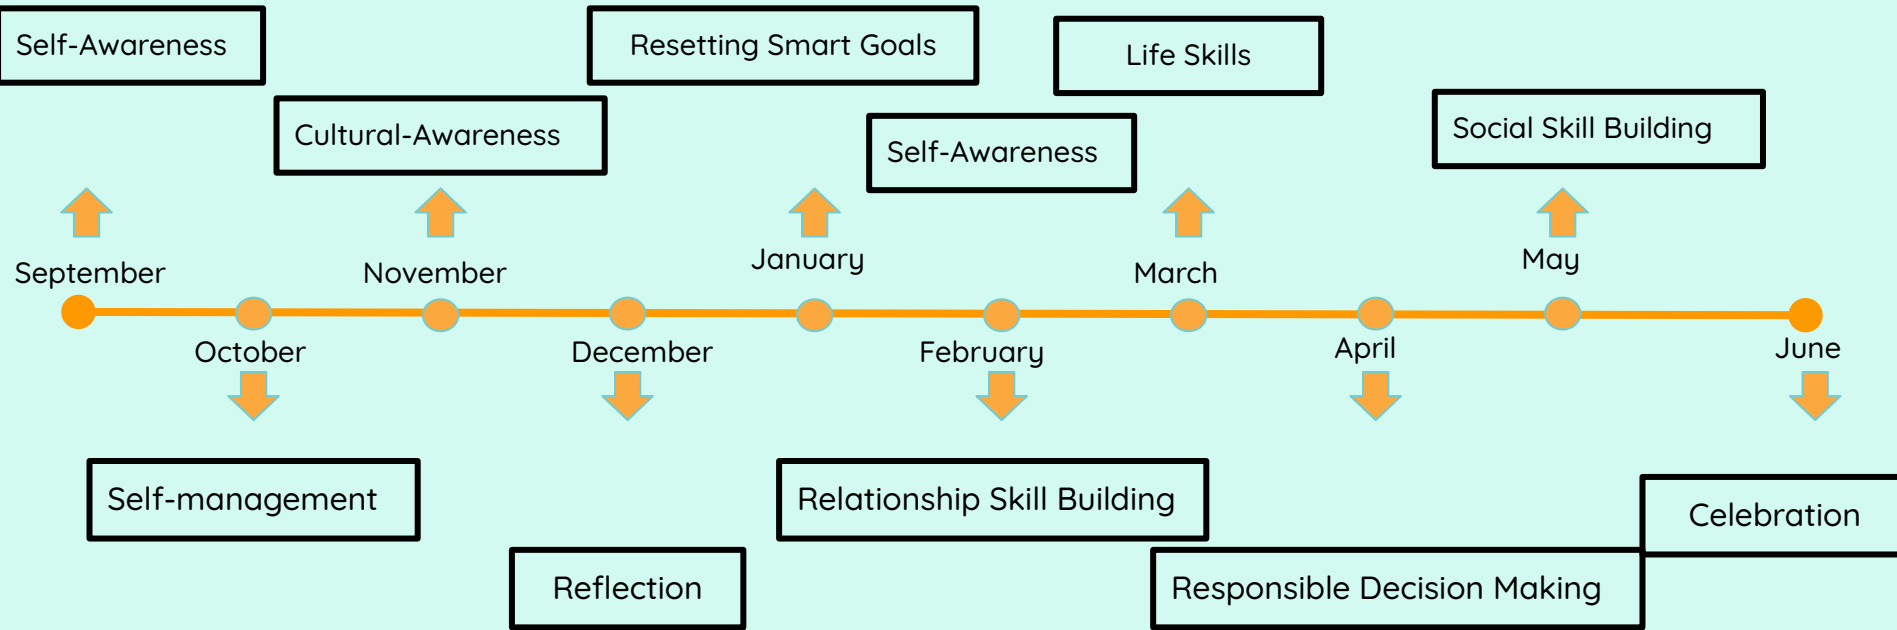

The project includes workshops on college readiness, which will be open to school alumni, siblings of students, and parents. Pacoima Charter aims to provide social-emotional curriculum to students. Parenting classes will also be offered on a variety of topics related to social-emotional learning.

Health/Wellbeing

We want to educate families on self-care as a way to balance their wellbeing. We want to create a space to have zumba nights and yoga for Wellness Wednesdays. Mindful activities for Mindful Mondays, and raffle off baskets with personal hygiene items and cleaning supplies.

Monthly Themes for Workshops

03

Project Goals

Now

We have a classroom
available to make this center.
We have a vision for this
room that will be inviting to
students and families.
